GitHub:<https://github.com/Dhanalakshmi980>

CAREER OBJECTIVE:

Aspiring Full Stack Developer with a strong foundation in HTML, CSS, JavaScript, Python, and Java, with an interest in developing responsive and functional web applications. Proficient in GitHub and Visual Studio Code, with hands-on experience developing practical web-based projects. A quick learner and collaborative team player, passionate about building efficient applications while continuously enhancing technical and problem-solving skills.

EDUCATION:

B.E Computer Science and Engineering:

Chettinad College of Engineering and Technology | 2024-2028 | 8.5/10 (CGPA)

SSLC:

Government High School | 2022 | 90%

HSC:

Government Higher Secondary School | 2022-2024 | 85%

PROJECT:

Title: Food Waste Management System using AI

Description: Food Wastage Management System is a platform or system that helps in collecting surplus food from restaurants, hotels, and households and distributing it to NGOs, shelters, or needy people instead of throwing it away.

Title: Ayursutra Panchakarma Management System

Description: Digital platform integrating traditional panchakarma with modern healthcare IT. Features patient management, treatment tracking, and real-time updates.

Title: AI-Powered Hospital Resource Allocation System

Description: Developed an AI-powered web application to optimize hospital resource allocation by helping ambulance attendants identify nearby hospitals based on treatment availability and available medical resources. The system aims to reduce emergency response time and improve efficient utilization of hospital resources.

SKILLS:

Programming Languages:

Python, C, Java, HTML, CSS, JavaScript

Tools:

GitHub: Version control & collaboration — tracks code changes, branching/merging. VS Code: Primary code editor — writing and debugging Python, HTML/CSS/JS. Power BI: Business intelligence, interactive dashboards & reports. Canva: Graphic design — project posters, presentations, visual content.

Soft Skills:

Team Collaboration | Problem Solving | Time Management | Effective Communication

CERTIFICATES:

Power BI - For Business application

Mongo DB: Connecting to a MongoDB database using the MongoDB shell, MongoDB aggregation

Claude101, Machine Learning using Python
